

# Direct Care Practice Inventory

Use the following list of practices to assess your own ability to understand and mitigate the effects of trauma on children and youth by engaging in trauma-informed care. Each statement below refers to behaviors or attributes you should demonstrate when interacting with children, families, or colleagues. For each of the statements, reflect on your own practices and select your current level of mastery. This tool may also be used by your trainer, coach, or administrator to observe your practices in this content area and support professional development goals.
